# Add & Subtract Capacity

To make Summer Punch for 2 people:  
300 ml of pineapple juice, 250 ml of orange juice,  
500 ml of lemonade.

- How much liquid is used in total to make Summer Punch for 2 people?
- How much orange juice would be need to make enough for 4 people?
- Would a 1L bottle of lemonade be enough to make drinks for 6 people?

*What methods can we used to add volumes?*

## Activity 3

## Add & Subtract Capacity

Tia has a record of how much milk she has in her café.  
Work out how much milk is used for each order.

2L and 430ml	1L and 100ml	
1L and 100ml		800ml
890ml	540ml
